ABOUT ME

I am currently a Web Development student at Seattle Central College. I have grown my passion for coding since the first class at school. Changing my career into tech is not easy for me but this challenges me to learn and develop my skills to be able to always deliver great solutions to customer's needs.

SKILLS

Language:

- Python
- Javascript
- Java

Additional skills:

- HTML & CSS
- SQL
- PgAdmin
- MySQL
- MS Office Suite

EXPERIENCE

- Collaborated with team members to build the website for school's programming club
- Built an app connecting with a database using python and PostgreSQL for a movie theatre business
- Built a website using HTML, CSS and JavaScript for a car accessories business to sell online which helped them increase sales by 30%
